

## Dell | Latitude D-Family Docking

Expand your desktop without expanding your desk. Compatible with the D-Family notebooks and media modules, the new Dell™ Latitude™ docking solutions provide the versatility you've been looking for.

### D/Port Advanced Port Replicator

Maximise your work space while expanding your desktop with the Latitude D/Port. The D/Port provides convenient cable management and alleviates the need to re-connect peripherals each time you return to your desk. One simple connection provides access to 15 expansion ports, including VGA, DVI, S-Video, Parallel, Serial, PS/2 (x2), Headphone, S/PDIF, USB 2.0 (x4), RJ-11, RJ-45 and D-Bay Connector. In addition, obtain work space flexibility and viewing expandability with the D/Port dual-display support.

### D/Dock Expansion Station

Obtain exceptional expandability with the D/Dock Expansion Station featuring a media bay, which supports Latitude D-Family Media Modules and media-module battery-charging, as well as a half-height industry-standard PCI slot. One simple docking connection provides access to the same 15 expansion ports included with the D/Port Advanced Port Replicator.

### D/View Notebook Stand

The Latitude D/View notebook stand, in combination with the D/Port, allows you to view your system at a whole new level by elevating the notebook's crisp and clear LCD to a more comfortable viewing position – replacing the need for a costly external display. This sleek, all-in-one desktop solution allows you to reduce desktop space by approximately 40%<sup>2</sup>. The convenient cable management channel is ideal for use with your full-sized keyboard and mouse in addition to all of your other essential peripherals via the 15 ports available on the D/Port.

D/View Notebook Stand

### D-Family Monitor Stand

For use with the D/Dock and D/Port, the D-Family Monitor Stand offers a compact, space-saving form factor with customisable D/Port docking positions. The open-side design allows easy access to media bays and ports on your notebook.

### Dell recommends Microsoft® Windows® XP Professional for Business

Subject to availability, prices and specifications are correct at the date of publication and may change without notice. Dell's Terms and Conditions of Sale and Service apply and are available on request and at [www.euro.dell.com](http://www.euro.dell.com). 1. The D/Dock Expansion Station is compatible with all D-Family notebooks except the Latitude D500. The D/Port Advanced Port Replicator, D/View Notebook Stand and D-Family Monitor Stand are all compatible with the Latitude D500, as well as the rest of the D-Family notebooks. 2. D/View uses approximately 40% less desktop space than if using a Port Replicator with a 17" CRT monitor. 3. This term indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gbit/sec. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.
