

Dell™ W4200HD Plasma HDTV

Dell | Displays

Quality

Dell displays are designed to our exacting quality standards and manufactured by the world's foremost suppliers, who must pass Dell's stringent quality audit. All Dell monitors meet or exceed all relevant industry standards.

Reliability

Dell displays undergo exhaustive testing for performance, reliability, durability and compatibility with Dell systems. Under our H.A.L.T. (Highly Accelerated Life Cycle Testing) regimen, Dell engineers push our displays well past specified tolerance limits for heat, cold, vibration, shocks and drops to ensure that our displays can withstand real-world conditions.

Dell Value

Dell's direct business model allows us to offer high quality monitors at low prices. We offer a wide variety of warranty offerings to assure peace of mind for you. Knowing that Dell has been a trusted technology supplier for 20 years allows you to buy with confidence from a stable and reliable technology partner.

The new Dell™ W4200HD 42" Plasma HDTV delivers spectacular High Definition picture quality with the bright vivid images and superb contrast that can only be found with plasma TVs. The W4200HD is multimedia-optimized with a wide aspect display providing 1024 vertical lines and 768 horizontal lines of resolution to provide an extraordinary High Definition TV viewing experience. An expansive 42" (diagonal) display provides 36.7" x 20.9" of viewable area, but in a thin TV which is less than 10" deep on its stand – and an unbelievable 3.3" when the stand is removed to prepare the system for wall-mounting.

The wide aspect ratio screen is ideal for TV, DVD and video applications, or gaming. When combined with the various Picture-in-Picture features, the W4200HD makes it easier for users to multi-task by simultaneously viewing multiple video inputs. The W4200HD can also accept PC inputs for users seeking the ultimate in multimedia.

The remote control enables users to easily choose whether to use the display as a television or monitor and access its many features.

New to the Dell TV lineup is SRS® TruSurround XT™ audio coupled to the integrated – but detachable -- two way speakers. With 40 watts of audio power, the W4200HD delivers a listening experience as impressive as its viewing experience.

The Dell W4200HD Plasma HDTV is an exceptional value comparable to Plasma HDTVs costing much more. It will be available for purchase on October 27, 2004, for \$3499¹. Detailed specifications will also be available on October 27.

Exceptional Performance. Easy as **DELL**

¹Expected pricing, specifications, availability, and terms of offers may change without notice. Taxes, fees and shipping charges are extra, and vary. Dell cannot be responsible for pricing or other errors, and reserves the right to cancel orders arising from such errors. ²Plasma TV On-site Exchange Service provided via third-party contract with customer.
