

Add some color to your work with affordable Dell printers

Dell introduces color laser printers with savings that are black-and-white

The Dell™ 3000cn, 3100cn, and 5100cn color laser printers offer exceptional output at prices that are comparable to black-and-white solutions. Designed to accommodate a variety of networking configurations and operating systems, these printers make setup and integration easy. Straightforward tools then help to simplify ongoing printer management. With expandable memory and flexible paper-handling options, these printers can grow with your business while keeping printing costs low.

A full spectrum of tools makes management simple

Each printer includes the Dell Printer Web Tool™ so you can configure printers on the network, check printing status or usage information, and establish e-mail alerts for paper jams or empty paper trays. Dell Toner Management System™ software alerts you when toner is low and then guides you to the Dell Web site, where you can order cartridges for your specific printer. Finally, the Dell ColorTrack driver helps you reduce printing costs by restricting color printing to specific users or groups.

Dell Laser Printer 3000cn: A vibrant addition for small workgroups

With printing speeds of up to 25 pages per minute (ppm) monochrome and 5 ppm color (actual print speed will vary with use), resolutions of 1,200 dots per inch (dpi), 2,400 dpi image quality for color and 600 dpi for black-and-white, and a monthly duty cycle of up to 45,000 pages, the Dell Laser Printer 3000cn is designed to deliver high performance at low cost. Built-in Ethernet, USB, parallel network connections, and compatibility with a range of Microsoft®

Windows® operating systems and Printer Control Language (PCL) help to ensure easy integration with your existing hardware.

The 3000cn ships with 64 MB of memory and a 150-sheet multipurpose tray. Add memory (up to 576 MB), multiple paper drawers, and a duplexer to maximize the printer's capabilities while protecting your investment.

Dell Laser Printer 3100cn: An extended palette for midsized workgroups

Designed for midsized workgroups, the Dell Laser Printer 3100cn features extended compatibility. The 3100cn supports Windows, Apple Macintosh, Linux®, UNIX®, and Novell® operating environments plus PostScript® files and the PCL printer language. The 3100cn provides standard 400-sheet input through two drawers, and offers an additional drawer and duplexer as an option.

Dell Laser Printer 5100cn: Robust performance for large workgroups

The Dell Laser Printer 5100cn is designed to deliver robust performance for large workgroups. With printing speeds of up to 35 ppm for monochrome and 25 ppm for color (actual print speed varies with use), and a duty cycle of up to 90,000 pages, the 5100cn is a

workhorse. Duplexing capabilities and 650-sheet input are standard. To realize the full potential of this printer, you can upgrade memory from 128 MB to 640 MB and add two additional paper drawers.

Dell service and support makes the choice clear

Although these printers are easy to manage, they are all backed by Dell 24/7 toll-free technical support. Standard one-year service and support includes fuser maintenance or replacement and Dell Next Business Day On-Site Service.¹

With exceptional performance, easy management, and low prices, these Dell laser printers can help you add some color to your office.
