

# Dell Latitude D-Family Docking

Expand your desktop without expanding your desk. Compatible with the D-Family Notebooks<sup>1</sup> and media modules, the new Latitude docking solutions provide the versatility you've been looking for. Undock & Go™, for instant productivity when undocking, is supported by all D-Family docking solutions.

D/View Notebook Stand

D/Dock Expansion Station

D/Port Advanced Port Replicator

D-Family Monitor Stand

## D/Port Advanced Port Replicator

Maximize your work space while expanding your desktop with the Latitude D/Port. The D/Port provides convenient cable management and alleviates the need to re-connect peripherals each time you return to your desk. One simple connection provides access to 15 expansion ports including: VGA, DVI, S-Video, Parallel, Serial, PS/2 (x2), Headphone, S/PDIF, USB 2.0 (x4), RJ-11, RJ-45 and D/Bay Connector for utilizing external D-Family media modules. In addition, obtain work space flexibility and viewing expandability with D/Port flat panel and dual-display support.

## D/Dock Expansion Station

Obtain exceptional expandability with the D/Dock Expansion Station. The D/Dock features the same 15 expansion ports as the D/Port, but also provides a full-height (106.68mm/4.2") /half-length (167.64mm/6.6") standard PCI slot and an internal media bay supporting Latitude D-Family Media Modules and media module battery charging. Enjoy the D/Dock's viewing expandability with the D/Dock flat panel and dual-display support.

## D/View Notebook Stand

The Latitude D/View notebook stand, in combination with the D/Port, allows you to view your system at a whole new level by elevating the notebook's LCD to a comfortable viewing position - replacing the need for a costly external display. This sleek, all-in-one solution allows you to reduce desktop space by approximately 40%.<sup>1</sup> The D/View's convenient cable management channel is ideal for use with your full-sized keyboard and mouse in addition to all of your other essential peripherals via the 15 ports available on the D/Port.

## D-Family Monitor Stand

For use with the D/Dock and D/Port, the D-Family Monitor stand offers a compact, space-saving form factor with customizable D/Port docking positions. Two easy access buttons, with status indicator LEDs, are provided for power and undocking convenience. Activity lights for the system hard drive and eject status are also provided. The sleek, open side design allows convenient access to media bays and frequently used ports on your notebook.

1. D/View uses approximately 40% less desktop space than if using a Port Replicator with a 17" CRT monitor.  
2. The D/Dock Expansion Station is compatible with all D-Family notebooks except the Latitude D500. The D/Port Advanced Port Replicator, D/View Notebook Stand and D-Family Monitor Stand are all compatible with the Latitude D500, as well as the rest of the D-Family notebooks.
