

Service Description: Your Tech Team for Consumers

Service Overview

Dell's Your Tech Team support service (the "Service" or "Services") assigns a support team available 24 hours per day, seven days per week to provide phone-based technical support assistance for in-warranty Dell-branded Consumer products purchased from Dell Home & Home Office online or via telephone or purchased from Dell Outlet Home & Home Office online or via telephone that are in a Customer's household (each a "Supported Product"), as set forth in this document (the "Service Description"), under the terms and conditions of each Supported Product's limited warranty ("Limited Warranty").

By calling Dell's technical support contact number and then entering Customer's express service code, Customer will be routed directly to Customer's assigned technical support team.

Service is staffed by technicians who are trained to support all Dell-branded products in the household. Customer may contact the assigned team directly by e-mail and request a response from the team. Customer may request a specific technician for support. Dell will make commercially reasonable efforts to connect the Customer with the requested technician. Customer may request to schedule support times.

By purchasing these Services from Dell, Customer agrees to be bound by all terms and conditions set forth in this Service Description. Please read this document carefully and note that Dell may change the terms of Services at any time. Customer acknowledges and agrees that using the Services after a change becomes effective indicates Customer's agreement to such change.

Limits on Service. Dell will utilize Customer's bill-to address to define the household and determine which products are Supported Products. Service extends only to Supported Products that are located within the United States. Service extends only to original purchasers of the Service who are located within the United States. Services are not transferable. Service is limited to technical support of Supported Products. Service does not include any additional parts, replacement, dispatching, or on-site service beyond that included in a Supported Product's Limited Warranty. Service does not expand, abridge, or otherwise in any way modify any warranties or service contracts that accompany Supported Products.

Service does not include the preventive maintenance, installation, de-installation, or relocation services and operating supplies, or repairs necessitated by software problems or as a result of alteration, adjustment, or repair by anyone other than Dell (or its representatives). In addition, Service only applies to the Supported Product's original hardware and software configuration that shipped from Dell's factory. Dell is not obligated to troubleshoot or repair any Supported Product or its component that has been damaged as a result of (i) accident, misuse, or abuse of the Supported Product or components (such as, but not limited to, use of incorrect line voltages, use of incorrect fuses, use of incompatible devices or accessories, improper or insufficient ventilation, or failure to follow operating instructions) by anyone other than Dell (or its representatives), (ii) an act of God such as, but not limited to, lightning, flooding, tornado, earthquakes, and hurricanes, or (iii) moving a Supported Product from one geographic location to another or from one entity to another.
