- 4 days intensive training on Red Hat Enterprise Linux 3
- Hands-on labs and exercises
- RHCT Exam on the morning of day 5
- One workstation per student!
- Red Hat promotional items!

Who Should Attend:

- Linux or UNIX users who understand the basics of Red Hat Linux
- IT professionals who desire further technical training to begin the process of becoming system administrators

Recommended Prerequisites:

- RH033 Red Hat Linux Essentials or equivalent experience

Study Materials:

- Student materials, pre-assessment questionnaire, study aids, handouts

Course Length:

- 4.5 days with exam
- 4 days without exam

Red Hat Linux Essentials offers you the opportunity to build user-level skills before learning Linux System and Network Administration. Twelve hands-on labs create real-world scenarios that help prepare you to use and customize your own Red Hat Enterprise Linux system for common command line processes and desktop productivity roles. This course is a recommended prerequisite for Red Hat Linux System Administration and the building block to earning your Red Hat Certified certification.
