

# A MAJOR INNOVATION IN PATIENT CARE

## DELL AND ALLSCRIPTS ARE BRINGING SECURITY AND SIMPLICITY TO ePRESCRIBING

As part of our effort to improve all aspects of patient care, Dell has joined Allscripts as a key sponsor of the National ePrescribing Patient Safety Initiative™ (NEPSI™). Allscripts and NEPSI have revolutionized the prescribing process by offering Allscripts ePrescribe™, a free Web-based solution that gives physicians anywhere the information they need to safely, accurately, and electronically prescribe medicine for patients.

Allscripts ePrescribe is an easy-to-use, Web-based software platform that is simple, safe, and secure and requires no downloading or new hardware. Allscripts ePrescribe makes ePrescribing:

- **Simple** — Online prescribing is easier than using a script pad
- **Safe** — Instantly check drug interactions, dosage levels, and patient-specific factors, including prior adverse reactions
- **Secure** — Patient information is protected by privacy and security measures, including prescriber authentication
- **Free** — The service is provided without cost by Allscripts and NEPSI members

In partnering with Allscripts and NEPSI, Dell is dedicated to bringing simplicity and innovation to physicians, giving them the power and convenience to improve outcomes for their patients.

To register for free ePrescribing, visit [www.nationalerx.com](http://www.nationalerx.com).
