High performance, excellent value

With its Intel Celeron processor running at 2.0GHz and DDR memory expandable to 512MB, the Dell Inspiron 1100 has the right level of performance to help you work efficiently and effectively with today's mainstream office applications. The Inspiron 1100 also features integrated Intel Extreme Graphics, high-speed USB 2.0 and ATA-100 hard disk drive support.

Integrated communications

The Inspiron 1100 includes an integrated 56K v.92-capable modem for easy dial-up connections and an 10/100 Ethernet LAN card for broadband and network connections. With two high-speed USB ports supporting data transfer speeds up to 40 times faster than USB 1.1 ports, you can get the maximum performance from your USB peripherals.

Practical features the way you want them

The ergonomic Inspiron 1100 is designed for ease-of-use and practicality. You can customise your system to meet your individual needs by choosing only the options you want. There's a choice of 14.1" and 15.0" XGA TFT screens supporting a resolution of 1024 x 768, and you can even choose from a variety of optical media modules including a CD-ROM, CD-RW, DVD-ROM or DVD/CD-RW combo drive.

Ideal for the office and the home

Whether you're looking to use your notebook for business or for leisure, the Inspiron 1100 offers real flexibility. The Inspiron 1100 is ideal for the small home office, requiring minimum space on its own. When used with the optional USB port replicator you gain all the functionality of a desktop PC. Simply connect your Inspiron 1100 to the port replicator and you're instantly connected to your office-based peripherals or network. After a hard day's work, why not relax with a DVD movie? The Inspiron 1100 features an S-Video port allowing you to connect your system to a television or projector for a big screen presentation. Or if you simply want to watch your favourite DVD on your own, the integrated front-ported stereo speakers provide a complete multimedia experience.

And it looks good too

With its Moonlight Silver casing and Venice Blue accents, the Inspiron 1100 looks good in any situation. It's just under 45mm thick and is a sleek, compact and stylish all-round mobile solution.
