

# LATITUDE 2100

- What if you could get fast internet access to check emails on the road, but rugged enough to take a few bumps on the road?
- What if you could have an affordable secondary laptop for your users to check email when their primary systems went down?
- What if you could get a netbook that had the same image commonality as the rest of your corporate notebooks?

## **DISCOVER SMART FUNCTIONALITY**

### **Smart design with functional features that help professionals stay in touch wherever they need to go**

Business keeps moving, no matter where you go. Easy mobility and collaboration are essential for all organizations. The Latitude 2100™ is equipped with integrated WiFi and Gigabit Ethernet to help you stay connected. Optional touch screen or webcam also enable easy collaboration. The Latitude 2100 netbook features a durable design with new rubberized casing and optional solid state drives for ultimate protection. It is easy to grab for quick meetings and is available with an optional carrying handle. Unprecedented customization, functionality and lightweight design make the Latitude 2100 the perfect device for checking emails, browsing the Web or taking notes during a meeting.

## **DISCOVER TRUE FLEXIBILITY**

### **Whether you are away from the office for a quick customer meeting or in a long day of training,**

the Latitude 2100 is the perfect companion for staying connected. Starting at 2.91lb / 1.32kg, the Latitude 2100 netbook can be customized to meet your organization's needs. Choose from traditional spinning hard drives or upgrade to solid state drives for increased durability. And get the operating system that best fits your needs, with Linux® or Microsoft® options. You can also make your laptop an extension of your business brand with the Latitude 2100's personalization options and choice of 5 custom colors.

## **DISCOVER CORE FUNDAMENTALS**

### **Provides IT an efficient & affordable secondary computing solution with core Latitude values**

The Latitude 2100 is part of the Latitude family, giving you the power to take advantage of our Latitude commitment to manageability, image stability, image management and award-winning Dell Services. The Latitude 2100 is available as a completely managed solution with systems management support (Wake on LAN, ASF, SMS). Our optional versatile Dell Mobile Computing Station even allows your IT staff to push updates to systems while they're stored. With the backing of Dell ProSupport Services designed to simplify your operations and protect your IT investment, through rapid response and proactive support that help reduce risk, cost and complexity. Dell is committed to providing you lower your total cost of ownership with the tools and service offerings to assist with maintenance over the Latitude 2100 lifecycle, so you can focus on keeping your team connected.
