

Dell™ UltraSharp™ 2001FP LCD Display

Dell | Displays

Quality

Dell displays are designed to our exacting quality standards and manufactured by the world's foremost suppliers, who must pass Dell's stringent quality audit. All Dell displays meet or exceed relevant industry standards.

Reliability

Dell displays undergo exhaustive testing for performance, reliability, durability and compatibility with Dell systems. Under our H.A.L.T. (Highly Accelerated Life Cycle Testing) regimen, Dell engineers push our displays well past specified tolerance limits for heat, cold, vibration, shocks and drops, to ensure that they are more-than-durable enough for real-world conditions.

Dell Value

Dell's direct business model allows us to offer the highest quality monitors at low prices. Dealing with Dell means a single point of contact and accountability. This helps you to reduce the time, management and administration costs of dealing with multiple vendors and gives you the peace of mind that comes with purchasing from a stable and reliable technology partner.

The **Dell™ UltraSharp™ 2001FP** is the newest model in Dell's redesigned line of flat panel displays and incorporates many advanced features for great performance and ease of use.

The Dell UltraSharp 200FP offers several new features, including:

- Dell designed thin, 0.7-inch, bezel that saves desk space
- Height-adjustable stand- (up to 5.1 inches) that allows users to set the monitor to their own comfort level
- Four USB 2.0 ports – two on the side and two behind the display – These powered ports give users convenient access points to plug in devices such as keyboards, digital cameras, secondary hard drives and printers.
- Panel movement – swivel (45° left/right) tilt, (25°back/5° forward) and 90° pivot to support portrait and landscape orientations.
- Optional detachable sound bar that delivers 14 watts of total output
- Quick-release detachable panel- for easy wall mounting
- The 2001FP offers analog and digital PC inputs, as well as S-Video and Composite Video inputs for optimal video editing and viewing. In addition, the monitor features Picture-in-Picture for watching DVDs while using the PC.

The 2001FP displays distortion-free images due to 16 millisecond response times and rich, powerful colors with 400:1 contrast ratios. Vertical and horizontal viewing angles of 88 degrees enable a clear view of the screen from virtually any location around the display – an advantage for multiple users sharing the same display.

The 2001FP will be offered in October. The Dell AS500 sound bar can be purchased separately for \$39 and is compatible with all new Dell UltraSharp monitors.

Key Specifications:

- Monitor Type: Active Matrix TFT
- Native Resolution: 1600 x 1200 @ 60 Hz
- Response Time: 16ms
- Contrast Ratio: 400:1 (typical)
- Typical Brightness: 250 CD/m²
- Horizontal Viewing Angle: +/- 88°
- Vertical Viewing Angle: +/- 88°
- Color Gamut: 75%
- Display Colors: 16.7 Million
- Analog Input: VGA 15 pin D-sub
- Digital Input: DVI-D
- Video inputs: S-Video and Composite
- Horizontal Range: 31-80 KHz
- Vertical Range: 56-76 Hz
- Power Consumption: 90W (max)
- Dimensions (HxWxD): 18"x17.6"x9.6"
- Net Weight: 18.72lb
- USB 2.0 High Speed Ports: 4 downstream
- Audio: AS500 Sound Bar Compatible
- 5.1-inch Height-Adjustable Stand
- VESA Mounting: 100mm
- Kensington Lock Slot
- TCO-99 Emission Compliant
- CE & Energy Star compliant

Exceptional Performance. Easy as **DELL™**
