Dell PowerEdge 400SC

Perfect for small businesses and home offices, the Dell™ PowerEdge™ 400SC offers affordable server functionality that is easy to set up, run and troubleshoot.

Performance and Value

If your small business or home office environment requires a server to manage increasing data demands, the PowerEdge 400SC server is an ideal solution. It offers the latest Pentium® 4 3.4GHz 800MHz front side bus and ECC DDR 400 SDRAM memory at a low cost. It can also be configured the Celeron® processor supporting a 400MHz front side bus for more cost-conscious customers.

The PowerEdge 400SC server takes advantage of technology developments to deliver essential server feature sets cost-effectively. In addition to healthy processing power, the PowerEdge 400SC configured with the Pentium 4 processor supports Hyper-Threading technology that is designed to improve performance and make the best use of your processor's capabilities. The result is a system that is designed to run high performance server operating systems for less money than a desktop running server functions.

Availability

Providing many high availability features, the PowerEdge 400SC server helps minimize costly downtime and keep you up and running. It offers Error Correction Code (ECC) memory that corrects single bit errors on DDR 400 SDRAM to provide increased bandwidth for high uptime and memory performance. Plus, you have the option of CERC IDE or Promise SATA Redundant Arrays of Independent Disks (RAID) that uses two disk drives for enhanced availability and fault tolerance.

Easy Integration

Because as a small business you must make the most of limited IT resources, the PowerEdge 400SC server is designed to integrate easily and simply into your environment. It is delivered with the System Support CD for easy server operating system installation to help keep you focused on reaching your business goals rather than implementing technology.

Dell Service and Support

Dell's built-to-order model offers you a solution that meets your exact requirements, and we deliver your new system to you quickly. We offer a suite of installation services and software support to help you get your new system up and running as soon as possible. Dell's online and telephone support will be there for you throughout the life of your system.

The PowerEdge 400SC server delivers incredible performance affordably and easily making it a perfect part of your successful small business or home office solution.

Dell PowerEdge 400SC

DELL ENTERPRISE SERVICES

By leveraging the proven advantages of our direct model, including tailored service and support, low cost and a single point of accountability, Dell Services can provide you with fast, effective, affordable service offerings at any point in your IT process. By doing so, we offer a combination of bundled best practices and tailored solutions that work together to provide maximum value to you. Whether you need support, deployment, training and certification programs, or professional consulting services, individually or bundled as a total package, Dell promises to be your single point of accountability at all times.

Professional Services

Dell Professional Services enables Dell customers to optimize ROI by leveraging complex technology through the design, development and deployment of innovative, robust and scalable business-critical solutions. With each engagement, we utilize our proven methodology and project management expertise to understand your business objectives, design plans that are flexible to adapt to your current environment and then deliver the desired results.

Deployment Services

We bring you deployment assistance that delivers true value from beginning to end. Dell can tailor systems to our customers' specifications by customizing the hardware and software configuration during the initial system-build to reduce redundancy and time. We can manage the delivery, installation and disposal of your assets with the same eye for efficiency.

Training and Certification

Our approach to Training and Certification allows you to outsmart your competitors — not outspend them — with industry-standard learning across Dell hardware and industry-standard software. Dell can assist you wherever you need us, whether on-site, online or in a classroom setting, to help your organization take full advantage of information technology.

Enterprise Support Services

Technology is a significant investment, and it pays to have a partner who can help you minimize costly downtime. Through our Premier Enterprise Support Services (PESS) offerings, Dell provides tiered support service packages with the flexibility to customize the offering to meet your specific needs across a wide range of computing environments. With proactive and reactive support options which include hardware and software support with varied response levels, account management and remote resolution, Dell provides support solutions that meet your needs, cost-effectively.

FEATURES	PowerEdge™ 400SC
Processor support	Pentium 4 2.26GHz or higher (533FSB or 800FSB) Celeron 2.0GHz or higher (400FSB)
Chipset	Intel® 875P
RAM type	ECC DDR-333 SDRAM or ECC DDR-400 SDRAM
Ram min/max	128MB-4GB
Disk	IDE 40, 80, 120GB SATA 120, 250GB SCSI 36, 73GB
Number of hard disk drive bays	2x1.0": Non-hot swap
Number of external drive bays	1x3.5": Floppy 2x5.25" for CD-ROM, DVD, tape backup
Availability	ECC memory
Server Management	OS based monitoring
Drive controller	Embedded 2xATA100 Opt. SCSI
I/O	3x32-bit/33MHz 5v
Opt. RAID	Opt. hardware CERC IDE RAID
	Opt. software Promise SATA RAID
LOM	1x Gigabit
Chassis	Mini-tower
