# Get Digitally Connected

## A classroom without walls

Dell and Stoneware have partnered to bring you a classroom without walls, transforming teaching and learning for the digital age.

The Dell | Stoneware webNetwork™ fileAccess Bundle gives students a digital locker to store coursework; Parents and teachers have shared access to student files; Technologists have consolidated, flexible storage that is Secure, Scalable and Easy to Manage!

Dell | Stoneware webNetwork™ fileAccess Bundle includes a centralized, secure shared repository for File Access Storage Technology!

### Advantages for Students

- Secure access to shared or personal documents from anywhere, at anytime, using any web-enabled device
- Remote editing with easy, intuitive file interface
- Eliminates need for student thumb drives

### Advantages for Teachers, Administrators and Parents

- Anytime access to network files, using any web-enabled device
- Eliminates need for emailing files or copying them to thumb drives or CDs
- Uses existing network login for simplified access

### Advantages for IT

- Secure: 128bit SSL Encryption, two-factor authentication supported and no VPN needed
- Leverages storage investment: Files remain on internal network storage
- Scalable: Web-based solution with cost effective concurrent-user licensing model
- Easy to Manage: Authentication and access control managed via Active Directory or eDirectory

### Dell PowerVault MD3000

Built for high-performance 2-node clusters or direct attached up to four Dell PowerEdge servers, the Dell PowerVault MD3000 is a modular disk storage array capable of housing up to fifteen 3.5-inch SAS or SATA disk drives in a single 3U rack enclosure. The Dell PowerVault MD3000 direct attached storage array is expandable by simply adding up to two additional expansion enclosures for a total of 45 drives and 90TB of capacity. The entire storage array subsystem is managed from a single software application-known as the Modular Disk Storage Manager-which streamlines the management and maintenance of storage as it scales. With the PowerVault MD3000, storage can be quickly and easily added as needed without disruption to operations.
