Get ahead. **Go wide.**

Why Go Wide?

The benefits of widescreen aren’t limited to movies and graphics. Widescreen monitors can help boost general productivity with office applications used by your entire staff. High-resolution displays, such as the Dell UltraSharp™ 3007WFP-HC, can contribute to measurable productivity and efficiency gains. Deploying Windows Vista™? The new Microsoft OS interface can be enhanced by a widescreen monitor.

As the world's largest flat panel monitor provider, Dell consistently exceeds business customers’ expectations with award-winning monitors at affordable prices. Engineered with leading edge technology and innovation, a Dell Widescreen Flat Panel Monitor isn’t just pretty, it’s an investment in the future of your business. Dell monitors are exhaustively tested under true-to-life circumstances, and come with a 3-Year Dell Limited Warranty, so you can rest assured your investment is protected.
Dell™ Widescreen Flat Panel Monitors

Upgrade to Dell Widescreen Flat Panel Monitors to help push the productivity of office applications and help your staff realize the full benefits of Windows Vista™ features.

Wide Open for Enhanced Efficiency.

- Spend less time toggling between applications or scrolling through spreadsheets
- Help reduce time consuming tasks like clicking, searching and shuffling of open windows
- Easily compare documents
- Keep alerts and the latest information close at hand
- Widescreen allows excellent access and use of the Windows Vista Sidebar, Live Icon thumbnails and Flip 3D
- Dell Widescreen monitors support the Windows Display Driver Model (WDDM), for advanced graphics and HD video playback features of Windows Vista

Windows Vista has not been tested on all user configurations, and drivers may not be available for some hardware devices and software applications. Check www.support.dell.com for latest driver availability. Some OS features - like the Aero interface - are only available in premium editions of Windows Vista and may require advanced hardware. Check www.windowsvista.com for details.

3007WFP-HC featured here. Please note, for the best viewing experience, your PC must have a Dual-link DVI-D compatible graphics card that supports the native 2560x1600 resolution of this panel. Confirm support prior to purchase. If you are ordering a Dell widescreen monitor to be used with a non-Dell system, please inquire with the system manufacturer to confirm resolution support.
